BUSINESS IMPROVEMENT AREAS

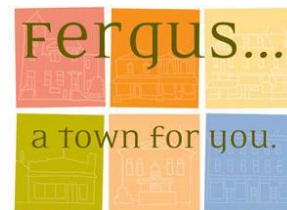

A Business Improvement Area (BIA) is a geographic area in a municipality. A BIA board of management is an organization set up to provide certain business promotion and improvement functions within that area.

A BIA allows local business people and property owners to join together and with the support of the municipality, to organize, finance and carry out physical improvement and promote economic development in their district. The local municipality is the body that is responsible for approving the budget of the BIA.

The [BIA Handbook](#) (2010) can be found on the Ministry of Municipal Affairs and Housing website. Managing and Operating a BIA can be found [here](#).

The BIA Management Boards are elected every 4 years
